Towards a Catalogue of Cleveland Publishing's Western Series. 4. Preliminary Title List for the Bison Western series

Anders N. Nilsson, Nordmaling, Sweden

[Version 19 May 2026]

A first important step for a better understanding of the many Australian westerns published by Cleveland is to gather information for a catalogue of some sort. Seems this work demands some collective efforts. I now distribute this preliminary list of Bison Western with more than 1,049 titles, out of the 1509 published, freely with the hope that those who knows and likes these books and magazines will help me to fill in the gaps. What I now need is simply #/Author/Title for as many of the missing issues as possible. Guess there are also some errors in my list that need to be fixed. All help is most welcome for sure, and I then promise to distribute updated lists. Please send your additions to andersnnilsson258@gmail.com or simply post cover photos in this or any other western fiction facebook group.

The Bison Western series was started at #100 in about 1960 at a printed price of two shillings. It kept being published until Cleveland closed their shop in 2018. The last issue was seemingly #1609, *Guns in Paradise* by Kirk Hamilton, sold at a printed price of $5.25. Seems that most titles listed below are reprints, although in some cases provided by Cleveland with new titles. Bibliographically, this series is interesting in two ways. First, Cleveland in 2008 started to give printing dates in their novel magazines. Second, on the title page one can find information on printing years of earlier editions plus original titles when changed.
